EDUCATION

National Economics University

Expected June 2026

Bachelor of Computer Science.

Relevant coursework: Business Analysis, System Analysis & Design, Web Design & Programming, Mobile App Development.

PROJECTS

UX Designer, Lollypop Designathon 2025

September 2025

AI-native app for detecting navigation errors in traffic

- Collaborated with 5 team members in a **24-hour hackathon** with the goal of helping young people navigate the city's busy traffic.
- Led **user research** to identify key pain points in how young commuters navigate unfamiliar routes. Synthesized 5 in-depth interviews to define opportunity areas, and establish the strategic direction for the MVP.
- Translated user research insights into **wireframes** to **visualize** complex flows. Delivered a **strategic pitch** to industry judges that highlighted the **product's scalability** and **user impact**.

UX Designer

August - September 2025

Web application to help in reading complex material

- Collaborated on **product discovery** to deconstruct the "complex reading" problem, using the **Jobs to Be Done (JTBD)** framework to identify user needs and usage contexts.
- Shaped the **solution strategy**, working with the team to translate abstract research insights into 2 low-fidelity wireframes for the MVP.

UX Designer, Petfren

May - July 2024

Smart math tutor app for parents

- Led **user research** to identify key pain points in how parents teach math. **Analyzed insights** from 5 in-depth interviews to define the core problem.
- Synthesized research data into **User Personas** and **Customer Journey Map** to visualize usage contexts and strategic opportunities.
- Built a rapid prototype to **visualize** UX recommendations, defining key feature sets and user flows to **align the product direction**.

SKILLS

UI/UX Design, Product Research, Wireframing, Prototype, HTML/CSS, JavaScript, Git.

TOOLS

Figma, Figjam, Notion, Obsidian, Zed.
