EDUCATION

National Economics University

Expected June 2026

Bachelor of Computer Science.

Relevant coursework: Business Analysis, System Analysis & Design, Web Design & Programming, Mobile App Development.

PROJECTS

UX Designer, Lollypop Designathon 2025 (24-hr)

September 2025

AI-native app for detecting navigation errors in traffic

- **Partnered** with a 5-member cross-functional team during a **24-hour** hackathon to architect an application optimizing urban navigation for young commuters.
- **Spearheaded** user research by conducting and synthesizing 5 in-depth interviews, successfully defining **3** distinct strategic opportunity areas.
- **Architected** the strategic direction for the MVP based on research findings, prioritising features around real-time guidance and route familiarity.
- Presented a **strategic product pitch** to **4** industry judges that highlighted the **product's scalability** and **user impact**.

UX Designer

August - September 2025

Web application to help in reading complex material

- **Co-led** product discovery to deconstruct the "complex reading" problem, using the Jobs to Be Done (JTBD) framework to identify user needs and usage contexts.
- **Translated** the solution strategy, converting abstract research insights into 2 low-fidelity wireframes for the MVP.

UX Designer, Petfren

May - July 2024

Smart math tutor app for parents

- Directed **5 qualitative interviews** with parents to surface key math-learning pain points, translating findings into 1 user persona and 1 comprehensive customer journey map to visualize usage contexts.
- **Prototyped** 3 core user flows to validate UX recommendations, **aligning** the team on feature priorities and product direction.

SKILLS

UI/UX Design, Product Research, Wireframing, Prototype, HTML/CSS, JavaScript, Git.

TOOLS

Figma, Figjam, Notion, Obsidian, Zed.
